

U.S. Patent Apr. 6, 1993 Sheet 5 of 6 5,200,729

FIG. 9A

FIG. 9B

FIG. 10A

FIG. 10B

US-PAT-NO: 5200729

DOCUMENT-IDENTIFIER: US 5200729 A

TITLE: Permanent magnet and magnetization apparatus for producing the permanent magnet

----- KWIC -----

US Patent No. - PN (1):  
5200729

1	U	Current	Current X	Pa	Document	Title
1		335/284		11	US 5200729	Permanent magnet and magnetization
2		P 310/156 310/67R;		7	US 5093595	Spindle motor having reduced torque
3		P 381/151 335/284		13	US 4730230	Apparatus and method for degaussing
4		P 310/184 310/156.4		26	US 4692646	Rotating electric motor with reduced
5		P 335/284 335/302;		6	US 4614829	Method for manufacture of magnet
6		P 310/49R 310/156.1		7	US 4575652	Permanent magnet motor having high
7		P 310/185 310/254;		7	US 4458168	Toothed reluctance synchro/resolver
